EU-GCC Clean Energy Technology Network fostering clean energy partnerships

The Network is funded by

EU-GCC Clean Energy Technology Network fostering clean energy partnerships

EU-GCC Clean Energy Technology Network acts as a catalyst to promote and enhance clean energy co-operation between the two regions

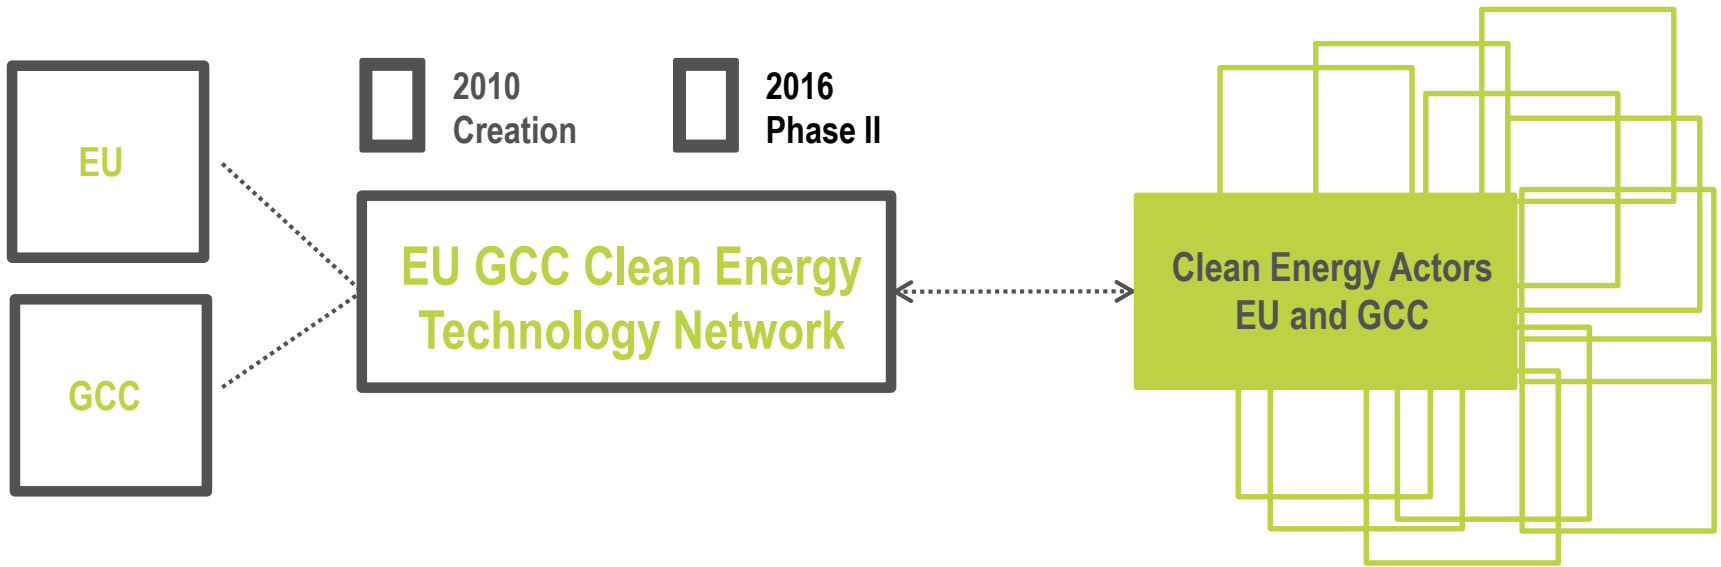

EU Project Consortium

PI/2015/370817

Funded by:

The Network at a Glance

Catalyst and facilitator for cooperation
on clean energy

Practical instrument for cooperation activities
in the area of clean energy technologies

- WA1 Renewable Energy Sources
- WA2 Energy Efficiency and Demand Side Management
- WA3 Clean Natural Gas
- WA4 Electricity Interconnections and Market Integration
- WA5 Carbon Capture and Storage

Network Stakeholders

- Governmental and policy making bodies
- Energy utilities and regulators
- Industry and commercial actors
- Research institutions, academia
- International/regional organisations
- Industry associations
- Energy experts

Bridge

- Know-how transfer
- Joint Publications/Studies
- Joint Project Ideas and Proposals
- Facilitation of Exchange of Researchers
- Facilitation of Partnerships

Source

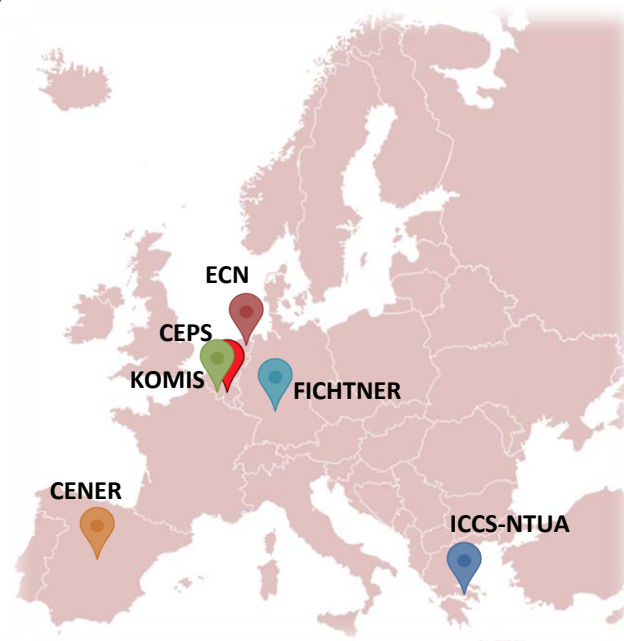

- Training events
- Capacity building initiatives
- Policy studies, technical papers
- Best practices
- Advanced website, e-resources

Platform

- Working Groups Meetings
- Workshops
- Conferences
- e-Collaboration
- Discussion Forum

- ❖ Network Head office/ Secretariat: Abu Dhabi (Masdar City), UAE
- ❖ Official EU Focal Point: European Commission
- ❖ Official GCC Focal Point: GCC Secretariat General – Energy Department
- ❖ Liaison office/ technical base: Athens, Greece
- ❖ Liaison offices in Partners' offices
